Opinion

We have audited the accompanying combined financial statements of Gardenview Opco LLC, Matawan SNF Operations LLC, Woodbury SNF Operations LLC, Sewell SNF Operations LLC, West Deptford SNF Operations LLC, Cranford SNF LLC, Rivers Edge SNF LLC, Cinnaminson Nursing LLC, Cranbury SNF Operations LLC, Maywood SNF Operations LLC, Hazel Street Operations, LLC, Mystic Meadows SNF LLC, and Wayne SNF Opco LLC (New Jersey limited liability companies and collectively, the "Company" or "Companies"), which comprise the combined balance sheet as of December 31, 2024, and the related combined statements of income, changes in members' equity, and cash flows for the year then ended, and the related notes to the combined financial statements.

In our opinion, the combined financial statements referred to above present fairly, in all material respects, the financial position of the Companies as of December 31, 2024, and the results of their operations and their cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Combined Financial Statements section of our report. We are required to be independent of the Companies and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Combined Financial Statements

Management is responsible for the preparation and fair presentation of these combined financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of combined financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the combined financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Companies' ability to continue as a going concern within one year after the date that the combined financial statements are available to be issued.

Auditor's Responsibilities for the Audit of the Combined Financial Statements

Our objectives are to obtain reasonable assurance about whether the combined financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements, including omissions, are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the combined financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the combined financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the combined financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Companies' internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the combined financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Companies' ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Transfer of operations: On various dates during the years 2019 through 2023, the Companies assumed the Facilities' operating licenses, Medicare and Medicaid provider numbers and agreements, and certain other Facility contracts from unrelated former operators of the Facilities. No value was assigned to these intangible assets. The Companies, at their sole discretion, hired the existing employees and commenced operations as of the date of transfer. Also, subsequent to the transfer of operations, certain accounts receivable of the Companies were collected by the former operators and certain receivables of the former operators were collected by the Companies. The net amount due to the Companies from the former operators is \$2,796,663 at December 31, 2024 and is reported within other receivables in the accompanying combined balance sheet.

Effective January 1, 2025, the operations associated with the Wayne SNF Opco LLC Facility were transferred to a new unrelated operator. As a result, Wayne SNF Opco LLC ceased operations on January 1, 2025. The net amount due from the Company to the new operator (primarily related to payroll in 2024 paid by the new operator) is \$441,580 at December 31, 2024 and is reported within accounts payable in the accompanying combined balance sheet.

Basis of presentation: The accompanying combined financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Principles of combination: The accompanying combined financial statements include the accounts of the Companies, which are affiliated through common ownership. All significant transactions between the Companies have been eliminated in the combination.

Limited liability companies: As limited liability companies, no member, director, manager, agent, or employee of the Companies are personally liable for the debts, obligations, or liabilities of the Companies whether arising in contract, tort, or otherwise, or for the acts or omissions of any other member, director, manager, agent, or employee of the Companies, unless the individual has signed a specific personal guarantee.

Variable interest entities: The Company follows Financial Accounting Standards Board (“FASB”) Accounting Standards Update (“ASU”) No. 2018-17 “*Targeted Improvements to Related Party Guidance for Variable Interest Entities*”, which allows a private company to elect, under certain circumstances, not to consolidate certain variable interest entities. Accordingly, the Company does not consolidate its affiliated lessors and its management companies, which are commonly-controlled entities that own/lease several of the skilled nursing facilities land and buildings to the Company (see Note 6) and manage the operations of the Facilities (see Note 7), respectively. Additionally, the Company does not consolidate Sewell SNF Realty LLC and West Deptford SNF Realty LLC, which are commonly-controlled entities that have entered into a purchase option agreement to purchase the respective facilities’ real estate from unrelated property owners (see Note 6).

Cranford SNF LLC, Rivers Edge SNF LLC, and Mystic Meadows SNF LLC lease their facilities from unrelated lessors (see Note 6).

Concentrations of credit risk: Financial instruments that potentially subject the Company to credit risk consist of cash deposits and accounts receivable. Cash deposits are maintained with high-quality financial institutions and the composition and maturities of temporary cash and investments, if any, are regularly monitored by management. The Company controls credit risk associated with accounts receivable through its monitoring procedures and by establishing an allowance for credit losses when considered necessary.

The Company’s operations are located in New Jersey and are economically dependent on the residents living in that geographic area. See Note 10 regarding concentrations in resident service revenues and resident accounts receivable.

Cash and cash equivalents: The Company considers all highly-liquid investments with an initial maturity of three months or less to be cash equivalents. As of December 31, 2024, there were no cash equivalents held. Cash, which consists of checking and savings accounts at various financial institutions, may exceed the federal insurance limit from time to time; however, management does not believe that the Company is exposed to any substantial risk.

Resident funds held in trust: Resident trust funds consist of funds held in trust for residents’ personal needs. These funds are maintained in cash accounts separate from the Companies’ operating cash accounts and a corresponding liability is recorded in current liabilities in the accompanying combined balance sheet. These restricted cash accounts are included in cash and restricted cash in the accompanying combined statement of cash flows.

Escrow deposits: The Companies’ escrow deposits consist of capital expenditure, real estate tax and insurance reserves which are held and maintained by the unaffiliated lessors (see Note 6) on behalf of the Companies. These reserves are maintained at an amount considered by the Company to be adequate and in compliance with the lease agreements. Use of the reserves is restricted as defined in the lease agreements. These restricted cash reserves are included in cash and restricted cash in the accompanying combined statement of cash flows.

Resident accounts receivable: Resident accounts receivable represents amounts due from payors for amounts billed for resident services provided. The Company provides an allowance for credit losses that is estimated utilizing current accounts receivable aging reports, historical collections data and other factors. In addition, the Company monitors collections and payments from payors and maintains an allowance based upon applying an expected credit loss rate to receivables based on the historical loss rate from similar payors adjusted for current conditions, including any specific payor collection issues identified, and forecasts of economic conditions. Management monitors these factors and determines the estimated provision for credit losses. Historical credit losses have generally resulted from uncollectible private balances, some uncollectible coinsurance and deductibles, and other factors. Receivables that are deemed to be uncollectible are written-off. The allowance for credit losses is assessed by management, with changes in estimated losses being recorded in the combined statement of income in the period identified. It is reasonably possible that the Company's estimate of the allowance for credit losses will change in the near term. At December 31, 2024, the allowance for credit losses totaled \$8,086,350, which management believes is adequate.

Management believes that the historical loss information it has compiled is a reasonable basis on which to determine the expected credit losses for receivables because the composition of receivables as of December 31, 2024 is consistent with that used in developing the historical credit-loss percentages (i.e., the similar risk characteristics of its payors and its credit policies has not changed significantly over time). Changes to the historical loss rate have not been material to the combined financial statements. Management developed its estimate based on its analysis of historical losses and assessment of future expected losses.

The following table provides a reconciliation of the changes in the allowance for credit losses for 2024:

Allowance for credit losses – beginning of year	\$	5,310,680
Additional provision for expected credit losses		3,858,303
Write-offs of receivables		<u>(1,082,633)</u>
Allowance for credit losses – end of year	\$	<u>8,086,350</u>

Net resident service revenues: Net resident service revenues and the corresponding accounts receivable, are reported on an accrual basis as services are performed at their estimated net realizable amounts from residents, third-party payors, and others for services rendered.

The Company records revenues for inpatient services and the related receivables in the accounting records at the Company's established billing rates in the period the related services are rendered. The provision for contractual adjustments, which represents the difference between the established billing rates and predetermined reimbursement rates, is deducted from gross revenues to determine net revenues. These predetermined reimbursement rates may be based on a provider's actual costs subject to program ceilings and other limitations or on established rates based on acuity and services provided as determined by the federal and state-funded programs. Services provided to Medicare beneficiaries are based on clinical, diagnostic, and other factors. Services provided to Medicaid beneficiaries are paid at determined rates per day. The Company is exposed to the risk of changes in Medicare and Medicaid reimbursement rates.

Amounts earned under federal and state programs with respect to nursing home patients are subject to review by the third-party payors which may result in retroactive adjustments. In the opinion of management, adequate provision has been made for any adjustments that may result from such reviews. Retroactive adjustments, if any, are recorded when objectively determinable, generally within three years of the close of a reimbursement year depending upon the timing of appeals and third-party settlement reviews or audits, and final settlements are reported in operations in the year of settlement.

The Company records revenues for rehabilitation services and other ancillary services and the related receivables at the time services or products are provided or delivered to the customer. Upon delivery of services or products, the Company has no additional performance obligation to the customer.

The Company follows Accounting Standards Codification ("ASC") 606 for all contracts. The amount of revenue recognized reflects the consideration to which the Company expects to be entitled to receive in exchange for these services. ASC 606 requires companies to exercise judgment and recognize revenue in accordance with the standard's core principle by applying the following five steps:

Step 1: Identify the contract with a customer.

Step 2: Identify the performance obligations in the contract.

Step 3: Determine the transaction price.

Step 4: Allocate the transaction price to the performance obligations in the contract.

Step 5: Recognize revenue when (or as) the entity satisfies a performance obligation.

Performance obligations are promises made in a contract to transfer a distinct good or service to the customer. A contract's transaction price is allocated to each distinct performance obligation and recognized as revenue when, or as, the performance obligation is satisfied. The Company has concluded that its contracts with patients and residents represent a bundle of distinct services that are substantially the same, with the same pattern of transfer to the customer. Accordingly, the promise to provide quality care is accounted for as a single performance obligation with revenue recognized at a point-in-time as services are provided.

The Company performs analyses using the application of the portfolio approach as a practical expedient to group patient contracts with similar characteristics, such that revenue for a given portfolio would not be materially different than if it were evaluated on a contract-by-contract basis. These analyses incorporated consideration of reimbursements at varying rates from Medicaid, Medicare, Managed Care, Hospice, Veterans Affairs, and Private Pay for services provided. It was determined that the contracts are not materially different within the following groups: Medicaid, Medicare, Managed Care, Hospice, Veterans Affairs, and Private Pay.

In order to determine the transaction price, the Company estimates the amount of variable consideration at the beginning of the contract using the expected value method. The estimates consider (i) payor type, (ii) historical payment trends, (iii) the maturity of the portfolio, and (iv) geographic payment trends throughout a class of similar payors. The Company typically enters into agreements with third-party payors that provide for payments at amounts different from the established billing charges. These arrangement terms provide for subsequent settlement and cash flows that may occur well after the service is provided. The Company adjusts the estimates of variable consideration such that it is probable that a significant reversal of previously recognized revenue will not occur throughout the life of the contract. Changes in the Company's expectation of the amount it will receive from the patient or third-party payors will be recorded in revenue unless there is a specific event that suggests the patient or third-party payor no longer has the ability and intent to pay the amount due and, therefore, the changes in its estimate of variable consideration better represent an impairment, or credit loss. These estimates are re-assessed each reporting period, and any amounts allocated to a satisfied performance obligation are recognized as revenue or a reduction of revenue in the period in which the transaction price changes. The Company satisfies its performance obligation by providing quality of care services to its patients and residents on a daily basis until termination of the contract. The performance obligation is recognized on a daily basis, for which the services are provided. For these contracts, the Company has the right to consideration from the customer in an amount that directly corresponds with the value to the customer of the Company's performance to date. Therefore, the Company recognizes revenue based on the amount billable to the customer in accordance with the practical expedient in ASC 606-10-55-18. Additionally, because the Company applied ASC 606 using certain practical expedients, the Company elected not to disclose the aggregate amount of the transaction price for unsatisfied, or partially unsatisfied, performance obligations for all contracts with an original expected length of one year or less.

Disaggregation of Revenues and Accounts Receivable

The Company disaggregates revenue from contracts with customers by payor type. The Company notes that disaggregation of revenue into these categories achieves the disclosure objectives to depict how the nature, amount, timing and uncertainty of revenue and cash flows are affected by economic factors. The payment terms and conditions within the Company's revenue-generating contracts vary by contract type and payor source. Payments are generally received within 30 to 90 days after billing.

Property and equipment: Property and equipment owned by the Company is stated at cost. Maintenance and repairs are expensed, while expenditures for renewals which prolong the lives of the assets are capitalized. For financial reporting purposes, depreciation and amortization of property and equipment is provided for by using the straight-line method based on the estimated service lives of the assets as follows:

Leasehold improvements	10 years
Furniture, fixtures, and equipment	5-15 years

The cost of assets sold or retired and the related amounts of accumulated depreciation and amortization are removed from the accounts in the year of disposal. Any resulting profit or loss is reflected in current operations.

As described in Note 6, the Companies lease the nursing home Facilities, and most of the furniture and equipment needed to operate the Facilities, from various lessors, some of which are related to the Companies through common ownership and some of which are unrelated.

Construction-in-process is stated at cost, which includes the cost of construction and other direct costs attributable to the construction. No provision for depreciation is made on construction-in-progress until such time as the relevant assets are completed and placed into service.

Leasehold improvements associated with facilities leased from unrelated lessors are amortized using the straight-line method over the shorter of the remaining lease term, including renewal options that we are reasonably certain to exercise, or the estimated useful life of the improvement. Leasehold improvements associated with facilities leased from related lessors are amortized using the straight-line method over the useful life of the improvements as determined by the common control group, regardless of the lease term.

Impairment of long-lived assets: The Company assesses the impairment of long-lived assets whenever events or changes in circumstances indicate the carrying amount of an asset may not be recoverable. The Company assesses the fair value of the assets based on the undiscounted future cash flow that the assets are expected to generate and recognizes an impairment loss when estimated undiscounted future cash flow expected to result from the use of the asset plus net proceeds expected from disposition of the asset, if any, are less than the carrying amount of the asset. When the Company identifies an impairment, it reduces the carrying amount of the asset to its estimated fair value based on a discounted cash flow approach or, when available and appropriate, to comparable market values. Based on the Company's evaluation there is no impairment of these assets at December 31, 2024.

Investment portfolio: The Company's investment portfolio includes publicly traded equity securities and investments in mutual funds being held to provide the Company an additional source of funds, as necessary, in the future and to collateralize one of the Company's revolving lines of credit (see Note 4). The investment portfolio is classified as a current asset.

The securities in the investment portfolio described above are reported at their fair values (as determined by quoted market prices) as of the combined balance sheet date with changes in the fair values of the securities included in other income. Gains and losses resulting from the sale or disposal of securities are determined using the specific identification method and are included in earnings.

The Company's cash included in the investment portfolio totaled \$23,965 at December 31, 2024 and is held in deposit accounts with the investment's broker. These amounts are included in cash in the combined balance sheet. The deposit account balances do not exceed federal bank depository insurance limits.

Compensated absences: Employees of the Company are entitled to paid vacation days depending on job classification, length of service, and hours worked. At December 31, 2024 the total amount accrued for compensated absences was \$1,739,099 and is included in accrued payroll and related costs in the accompanying combined balance sheet.

Security deposit liability: The former operator of the Hazel Street Operations, LLC's Facility collected refundable security deposits from residents upon occupancy. Hazel Street Operations, LLC assumed this liability when operations transferred in 2022. Hazel Street Operations, LLC has discontinued the practice of collecting security deposits from residents upon occupancy and refunds previously collected security deposits when a resident leaves the Facility.

Advertising costs: The Company expenses advertising costs as incurred. Advertising costs for 2024 totaled approximately \$677,987 and are included in general and administrative expenses in the combined statement of income.

Income taxes: The Company is taxed under provisions of the Internal Revenue Code which provide for the Company's net income or loss to be included in the individual tax returns of the members for federal tax purposes. Accordingly, no provision for federal taxes has been recorded in the accompanying combined financial statements. Local income taxes are accrued at statutory rates, as applicable.

The Company pays income taxes at the entity level on taxable income in the state of New Jersey per the state's Pass-Through Entity Tax ("PTET") regulations. PTET election removes certain state and local income tax deduction limitations related to the members personal federal income taxes. The Company has determined these payments are made exclusively on behalf of the members and therefore the Company includes the payments within member distributions. Accordingly, no provision for state taxes has been recorded in the accompanying combined financial statements. PTET payments included in member distributions totaled approximately \$1,243,000 in 2024.

Member distributions: In accordance with the Companies' operating agreements, the Companies generally make distributions to fund the members' respective income tax liabilities resulting from the taxable income from the Companies. Other discretionary distributions may also be made.

Recording of insured claims: When applicable, the Company records anticipated insurance claims liabilities and related insurance recoveries for medical malpractice claims and similar contingent liabilities in the accompanying combined balance sheet on a gross basis. Any estimated insurance recovery provided under the existing policy is reflected as a receivable on the same basis as the liability, subject to the need for a valuation allowance for uncollectible accounts. No such receivables or liabilities have been recorded as of December 31, 2024.

Use of estimates: The preparation of combined financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. The most significant estimates relate to variable consideration for net resident service revenue recognition, assessing the expected credit losses of resident accounts receivable, legal and professional liabilities and receivables for related insurance recoveries, depreciation, asset valuations and useful lives. These estimates may be adjusted as more current information becomes available, and any adjustments could be material.

Combined statement of cash flows: Interest paid during 2024 totaled \$1,193,911.

The following table provides a reconciliation of cash and restricted cash reported within the combined balance sheet that sum to the total of the same such amounts shown on the combined statement of cash flows.

Cash	\$ 18,157,698
Restricted cash – resident trust funds	487,246
Escrow deposits	<u>1,212,116</u>
 Total cash and restricted cash shown in statement of cash flows	 <u>\$ 19,857,060</u>

Fair value measurements: Inputs used to derive the fair value of assets and liabilities are analyzed and assigned a Level 1, 2 or 3 priority in accordance with accounting principles generally accepted in the United States of America, with Level 1 being the highest and Level 3 being the lowest in the hierarchy. Level 1 inputs are quoted prices in active markets for identical assets or liabilities. Level 2 inputs are quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations in which all significant inputs are observable in active markets. Level 3 inputs are based on valuations derived from valuation techniques in which one or more significant inputs are unobservable.

Leases: The Company determines whether an agreement contains a lease at inception based on the Company's right to obtain substantially all of the economic benefits from the use of the identified asset and its right to direct the use of the identified asset. Operating leases are included in operating lease right-of-use ("ROU") assets, current maturities of operating lease liabilities, and long-term operating lease liabilities in the accompanying combined balance sheet. Finance leases, when applicable, are included in property and equipment, current maturities of finance lease liability, and long-term finance lease liability in the accompanying combined balance sheet.

ROU assets represent the Company's right to use an underlying asset for the lease term and operating lease liabilities represent its obligation to make lease payments arising from the lease. Operating lease ROU assets and liabilities are recognized at the commencement date based on the present value of lease payments over the lease term. Lease payments are discounted using the rate implicit in the lease or, if not readily available, the Company's incremental borrowing rate based on information available at lease commencement. The incremental borrowing rate for a lease is the rate of interest the Company would have to pay on a collateralized basis to borrow an amount equal to the lease payments for the asset under similar terms. The operating lease ROU assets are increased by any prepaid lease payments and initial direct costs and reduced by any lease incentives. The lease terms may include options to extend or terminate the lease when it is reasonably certain that the Company will exercise such options. Variable lease payments that depend on an index or a rate are included in the determination of ROU assets and lease liabilities using the index or rate at the lease commencement date. Variable lease payments that do not depend on an index or rate or resulting from changes in an index or rate subsequent to the lease commencement date, are recorded as lease expense in the period in which the obligation for the payment is incurred. Lease expense for operating lease payments is recognized on a straight-line basis over the lease term and is included in operating expenses in the accompanying combined statement of income. For finance leases, the lessee recognizes interest expense and amortization of the ROU asset. The Company's leases do not contain any residual value guarantees or material restrictive covenants.

The Company elected the short-term lease practical expedient, which allows the Company to not record an operating lease ROU asset and operating lease liability for any lease with a term of twelve months or less at lease commencement, and also elected the single component practical expedient for all asset classes, which allows the Company to include both lease and non-lease components associated with a lease as a single lease component when determining the value of the operating lease ROU asset and operating lease liability.

Change in accounting principle: In March 2023, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2023-01, *Leases (Topic 842): Common Control Arrangements*. The ASU is effective for fiscal years beginning after December 15, 2023, although early adoption is permitted. The Company did not early adopt the ASU.

This ASU modifies the guidance for related party arrangements between entities under common control ("common control arrangements"), introducing a practical expedient for private companies. The expedient allows these entities to use the written terms and conditions of a common control arrangement to determine whether a lease exists and, if so, to classify and account for that lease without evaluating the legal enforceability of the terms and conditions required under ASC Topic 842. This practical expedient may be adopted on a prospective basis for all new or modified arrangements from the adoption date or retrospectively to the beginning of the period in which the entity first applied ASC 842.

In addition to the practical expedient, the ASU amends the guidance in ASC 842 related to accounting for leasehold improvements under common control arrangements. The ASU requires that leasehold improvements be amortized by the lessee over the useful life of the leasehold improvements as determined by the common control group, regardless of the lease term, provided the lessee controls the use of the underlying leased asset. If the lessee no longer controls the use of the underlying asset, the ASU requires that the leasehold improvements be accounted for as a transfer of equity between the lessee and the lessor. This amendment may be adopted on a prospective basis for all new and existing leasehold improvements as of the adoption date, or retrospectively to the beginning of the period in which the entity first applied ASC 842.

The Company adopted both provisions of this ASU effective January 1, 2024, applying them retrospectively to January 1, 2022, the date the Company first applied ASC 842. There was no cumulative effect on members' equity as a result of the adoption. The adoption of the ASU did not result in a change to the Company's lease accounting policy or leasehold improvement amortization policy. See Note 6 for further disclosures regarding the Company's lease arrangements.

Subsequent events: In preparing these combined financial statements, management has evaluated events and transactions for potential recognition or disclosure through June 19, 2025, the date the combined financial statements were available to be issued.

NOTE 8 – COMMITMENTS AND CONTINGENCIES

Legal actions and claims: The Company, at times, may be party to various legal actions and claims arising in the ordinary course of its business. The Company's management believes that the ultimate disposition of these matters will not have a material adverse effect on the Company's combined financial position or results of operations.

Professional liability insurance: The Companies have general and professional liability insurance policies ("GL/PL"), with coverage on a claims-made basis. The GL/PL coverage, on a per facility basis, has a limit of \$1,000,000 per occurrence and a \$3,000,000 annual aggregate. These policies are renewed annually.

There is currently no pending medical malpractice litigation against the Company, nor is management aware of any medical malpractice claims, either asserted or unasserted, that would exceed the policy limits. Based on a review of historical claims experience, management has determined that no liability is necessary at December 31, 2024. As such, the Company has not recorded anticipated insurance claims liabilities and related insurance recoveries for medical malpractice claims and similar contingent liabilities as of year-end. The cost of this insurance policy represents the Company's costs for premiums and any claims for the year, which is charged to operations as a current expense.

Self-insured health care plan: The Company self-insures its employer provided health care insurance. The Company has entered into an agreement with an unrelated third-party broker to administer its self-insured plan. Claims in excess of certain limits are covered by a stop-loss policy. Monthly premiums paid by the Company per employee, as determined by the broker, are based on historical data and are expected to partially cover all claims both incurred and reported during a typical year and claims incurred but not yet reported, in addition to all costs associated with administering the Plan. The Company records an estimated accrual, when appropriate, if the Company has determined that claims incurred will exceed the amount of premiums paid or reflects a prepaid health insurance premium asset when premiums paid are determined to exceed the total estimate of claims for the year. The administrator of the plan then adjusts the subsequent year per employee premium taking into account any estimated over or underpayment into the insurance claims fund. At December 31, 2024, the Company recorded an accrued liability of \$754,272 to account for claims incurred but not reported as of December 31, 2024. The related liability is included in accrued payroll and related costs in the accompanying combined balance sheet.

Collective bargaining agreements: At December 31, 2024, a significant portion of the Company's Facilities labor force is covered by collective bargaining agreements.

NOTE 9 – EMPLOYEE BENEFIT PLAN

The Company sponsors a 401(k) profit-sharing plan covering substantially all employees of the Company. Participants may elect to defer a portion of their annual compensation by contributing to the 401(k) plan, subject to plan provisions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. In accordance with the plan agreement, the Company may make discretionary matching contributions. Employer contribution expense totaled \$32,998 in 2024 and is reported within general and administrative expense in the accompanying combined statement of income.

NOTE 10 – CONCENTRATIONS

Medicare and Medicaid: Laws and regulations governing the Medicare and Medicaid programs are extremely complex and subject to interpretation. As a result, there is at least a reasonable possibility that recorded estimates will change by a material amount in the near term. All of the Company's 1,951 beds are designated for care of patients in New Jersey's Medicaid program.

The following table summarizes net resident service revenues with customers by payor source for 2024:

Medicare	\$ 94,603,289	38.0%
Medicaid	106,684,832	42.8%
Managed Medicare	22,060,597	8.8%
Private Pay	18,386,584	7.4%
Other	<u>7,539,444</u>	<u>3.0%</u>
Total	<u>\$ 249,274,746</u>	<u>100.0%</u>

The Company grants credit, without collateral, to its patients, most of whom are local residents and insured under third-party payor agreements. Receivables from residents and third-party payors at December 31, 2024 are summarized in the following table:

Medicare	\$ 10,758,325	25.0%
Medicaid	14,629,471	34.0%
Managed Medicare	8,142,179	19.0%
Private Pay	15,884,131	37.0%
Other	<u>1,624,715</u>	<u>3.8%</u>
	51,038,821	118.8%
Less: allowance for credit losses	<u>8,086,350</u>	<u>18.8%</u>
Total	<u>\$ 42,952,471</u>	<u>100.0%</u>

The Company's future profitable operation is largely dependent on the laws and regulations governing the Medicare and Medicaid programs. The Company does not expect any changes in the near term in the laws and regulations governing the Medicare and Medicaid programs that could unfavorably impact the Company's results of operations. The Company believes that it is in compliance with all applicable laws and regulations and is not aware of any pending or threatened investigations involving allegation of potential wrongdoing. While no such regulatory inquiries have been made, compliance with such laws and regulations can be subject to future government review and interpretation as well as significant regulatory action including fines, penalties, and exclusion from the Medicare and Medicaid programs.

Medicare Reimbursement

For Medicare reimbursement, the Patient Driven Payment Model (PDPM) is used under the Skilled Nursing Facility (SNF) Prospective Payment System (PPS) for classifying SNF residents in a covered Medicare Part A stay. Under PDPM, payments are derived primarily from resident characteristics. The model separately identifies and adjusts five different case-mix components for the varied needs and characteristics of a resident's care and then combines these with a non-case-mix component to determine the full SNF PPS Per Diem rate for that resident. Every patient gets classified into one case-mix group in each of the five components. Based on that case-mix group and their associated case-mix index, each component then contributes to the total Per Diem payment.

New Jersey Medicaid Reimbursement

The Medicaid reimbursement system for nursing facilities in the State of New Jersey (the "State") is a managed care reimbursement model. Under this model, the State provides funding to managed care organizations ("MCOs") to coordinate all healthcare services, including long-term care services, for Medicaid beneficiaries. In turn, the MCOs will reimburse nursing facilities for services rendered to Medicaid beneficiaries admitted to nursing facilities. The reimbursement received by the nursing facilities is negotiated between the MCOs and the nursing facilities.

The Centers for Medicare and Medicaid Services (“CMS”) approved a State Plan implementing a provider assessment (the “Assessment”) charged to the state’s nursing homes. The Assessment requires all nonexempt New Jersey nursing homes to pay a fee to the Department of Health and Social Services (“DHSS”) based upon all non-Medicare days. Assessment fees were applied to each non-Medicare census day at a rate of \$14.67 per day. Assessment fees are paid on a quarterly basis. Assessment fees totaled \$6,609,878 in 2024 and are included in operating expenses in the accompanying combined statement of income. Assessment fees payable totaled \$1,687,637 at December 31, 2024 and are included in accounts payable in the accompanying combined balance sheet.

NOTE 13 – UNION SETTLEMENT

The union associated with the workforce of Rivers Edge SNF LLC and Cranford SNF LLC filed a claim in July 2020 against the former operators demanding certain vacation pay it believes is owed to employees covered by the collective bargaining agreement. As a result of subsequent litigation, the former operator has agreed to remit payment for unpaid vacation wages through September 2020. A calculation of the amount owed was not completed as of April 30, 2021, the date operations transferred. As part of the operations transfer agreement, (i) Rivers Edge SNF LLC and Cranford SNF LLC agreed to remit payment for the claims amount (once calculated) and (ii) the former operator paid Rivers Edge SNF LLC and Cranford SNF LLC \$900,000. If the total claim plus legal fees is less than \$900,000, Rivers Edge SNF LLC and Cranford SNF LLC will reimburse the net amount to the former operator. If the total claim plus legal fees is more than the \$900,000, Rivers Edge SNF LLC and Cranford SNF LLC will incur the additional expense. Rivers Edge SNF LLC and Cranford SNF LLC paid approximately \$38,000 of claims during 2024. Rivers Edge SNF LLC and Cranford SNF LLC and its legal counsel estimate the \$317,038 of remaining potential claims liability reported within accrued expenses in the accompanying combined balance sheet at December 21, 2024 is an accurate estimate of anticipated remaining claims plus legal fees. As such, no reduction of liability or additional liability has been recorded in 2024.
